

## REMARKS

The present Amendment is intended to amend some paragraphs of the specification. No new matter has been added.

5           The following paragraphs of the specification have been amended:

          the fourth paragraph on page 8 of the specification has been amended to reflect issuance of US patent application Ser. No. 09/126,378 as US Patent No. 6,404,522 and to correct minor editorial matters;

          the fifth paragraph on page 8 of the specification has been  
10 amended to reflect issuance of US patent application Ser. No. 09/389,345 as US Patent No. 6,574,018 and to correct minor editorial matters; and

          the sixth paragraph on page 8 of the specification has been amended to reflect issuance of US patent application Ser. No. 09/624,983 as US Patent No. 6,763,191 and to correct minor editorial matters.

15           Favorable consideration and allowance of the application are hereby respectfully requested.

Respectfully submitted,

20

Doron HANDELMAN
